Installation & Programming

Video available on Raindrip.com/timers
Installation

Tool-Free!

Tip: Must have minimum of 15 PSI at hose bib.

Visit Raindrip.com/timers
Programming

1. Set Frequency
   (Frequency = How OFTEN you want the water to come on.)

   From RESET position, turn dial to desired setting.
   (Example has timer starting once a day.)

   ! Turn dial from RESET position at the time of day watering is to start (e.g. at 7:00 am)

2. Set Run Time
   (Run Time = How LONG you want the water to run.)

   Set dial to the desired setting.
   (Example has timer running for 15 min.)

Programming Changes

! If you avoid the RESET position, Frequency and Run Time dial settings can be made at any time and will not change your original start time.

Tip:
“AUTOMATIC” light will flash when in automatic mode.
Getting Started

1. Make sure you have:
   • (2) Alkaline AA batteries (not included)

2. Load the batteries as shown:

Tip: Firmly push down on the battery tray to ensure it is clicked into the timer.

Extra Features

Rain Delay
(Rain Delay = Watering delayed for a specified period of time)

From RESET position, turn dial to desired “Rain Delay” setting.
(The example shows the program will resume in 48 hours.)

Manual Watering
(Manual Mode = Watering in between scheduled programming)

From RESET position, turn dial to desired “Manual Water” setting.
(The example shows the timer will water manually for 30 minutes.)

Tip:
Manual light will flash when in Manual or Rain Delay modes.

⚠️ Automatic watering will resume automatically after manual mode is complete.
### Troubleshooting

#### Water does not come on:

<table>
<thead>
<tr>
<th>POSSIBLE PROBLEM</th>
<th>SOLUTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Water off</td>
<td>Turn water on</td>
</tr>
<tr>
<td>Battery power low</td>
<td>Replace batteries</td>
</tr>
<tr>
<td>Batteries not installed properly</td>
<td>Correct battery installation</td>
</tr>
<tr>
<td>Run time is longer or the same as Frequency</td>
<td>Increase Frequency or reduce run time.</td>
</tr>
</tbody>
</table>

*(Example: If Frequency dial is set to 1-hour, then Run Time dial must be 30 minutes or less.)*

Winterize: remove from faucet, remove batteries and store indoors.

Warranty: Limited three year warranty from date of purchase. (original receipt required for warranty claim)
